DTU-1141B
10.1-inch Pen Display

wacom® for Business

DTU-1141B

The leading eDocument and eSignature solution
Product Overview

The DTU-1141B provides an ideal document viewing and signing experience with its 10.1-inch, full HD resolution screen, minimal footprint and thin profile. It operates as an external monitor, but utilizes Wacom's patented pen technology to provide input for writing and signing. It is perfect for business applications that benefit from people working directly on screen with a pen, such as presenting forms for customers to review sign electronically, or mark up and annotate documents. While not in use for signing, it can display slideshows or advertising videos.
Key Features:

- 10.1" LCD boasts full color, full HD resolution (1920x1080) and wide viewing angle.

- Patented, cordless, battery-free pen with 1024 levels of pressure sensitivity for premium signing/writing experience.

- Single USB cable installation. USB cable supplies video, power and USB data.

- State-of-the-art encryption to ensure secure transactions.

- 4 capacitive-touch ExpressKeys can be assigned to common functions.

- Hardened, anti-glare surface provides high durability and easier viewing in different lighting conditions.

- Unique hardware ID (UID) to identify the exact unit used for any transaction.

- Kensington® Security Slot to secure the unit when needed.

- Standard VESA mounts allow you to use third-party arms and stands.

Wacom for Business leverages decades of leadership in digital pen technology to help organizations digitize processes
that require in-person interaction. We enhance Wacom and third-party pen-enabled devices with software
that stores and displays biometrically accurate digital ink. These integrations empower our global network of partners
to seamlessly incorporate handwritten electronic signatures and annotation into organizational workflows.
The result: Paperless processes with a familiar yet digital pen and paper feel.
Moreover, our WILL™ 3.0 (Wacom Ink Layer Language) standard for universal ink is powering new applications
that will ensure the next generation of customer experiences are more human, and more digital.
